EXPRESSION OF INTEREST FOR 2026 YEAR 2-6 BYOD iPad CLASSES

We are excited to announce the continuation of our BYOD iPad program! To participate, families will need to provide an iPad that is at least a 9th generation (2021) or any model released after 2021 to ensure it is compatible with our school's technology systems. Please note that iPad minis **are not** suitable for classroom use due to their limited capabilities.

Please ensure that the iPad **does not** have cellular capabilities as this will prevent it from connecting to the department's internet, limiting access to essential security and filtering features.

PLEASE NOTE:

If your child is currently in an iPad class and their iPad is in good working condition, they can continue using the same device next year.

BENEFITS FOR YOUR CHILD

BYOD iPad classes aim to provide a rich, engaging, and future-ready learning experience for your child.

- ✓ **Personalized Learning:** With an iPad, your child can learn at their own pace, access a wide variety of educational apps, and explore interactive lessons that cater to different learning styles.
- ✓ **Increased Engagement:** Interactive apps, multimedia resources, and digital tools help make learning more engaging, sparking curiosity and creativity in your child.
- ✓ **Developing 21st Century Skills:** Using an iPad fosters critical skills such as digital literacy, problem-solving, collaboration, and communication, all of which are essential in today's world.
- ✓ **Preparation for Future Learning:** Familiarity with technology in the classroom prepares your child for the digital tools and environments they'll encounter in higher education and the workforce.
- ✓ **Interactive Feedback:** Teachers can provide instant feedback through apps and platforms, helping your child understand and improve their work more efficiently.

Please return this slip to the front office ASAP or no later than 7th November 2025

☐ **YES** My child will be using an iPad at school

☐ **NO** My child will not be using an iPad at school
