

# Investing for Success

Under this agreement for 2021  
Coombabah will receive

**\$333,682**

## This funding will be used to

Target	Measures
Increase the % of students in all year levels achieving A-C in English.	Comparison of previous year level results to current year A-E results. Improvement in student levels in PM and Probe after Reading Links intervention.
Increase the % of students in all year levels achieving A-C in Mathematics.	Comparison of previous year cohort to current year A-E results. Student improvement in targeted intervention maths groups using PAT M.
Facilitate Teacher development of targeted programs to support Literacy and Numeracy and the Australian Curriculum.	Increased engagement of students. Teacher awareness and knowledge of working with the Australian Curriculum to support our students.
Provide support in the early years (P-2) based on data including Early Start.	Students A-E results. Attendance Data. PM reading levels. Teachers use and understanding of the Literacy Continuum.
Increase teacher capacity and capability in Digital Pedagogies.	English A-E results. Goal setting for students that is updated each term using the Literacy Continuum.
Support teachers to develop their data literacy to target specific focus areas.	All teachers participating in data conversations and follow up discussions using the data.

## Our initiatives include

- Using previous high yield support strategies for Numeracy and Writing programs. (Writing Cycle and targeted maths intervention groups).
- Providing teachers with access to structured intervention programs delivered by expert teachers.
- Using trained teacher aides to enable needs based grouping in classes to target specific skills in 8 week cycles.
- Teachers using data and regularly meeting to discuss data and student growth with members of the Administration team.
- Focused data conversations with specific target children identified and tracked. Data conversations used to ensure classroom strategies are targeting student needs.
- High level of resourcing to compliment the school programs in order to meet our student and staff needs.
- Intervention strategy based on Pat Maths data, Early Start data and grouping of like students.
